

## About eDocket™

eDocket™ combines key court data and images from the CourtView CMS and VistaSG netDMS™ into a unified, electronic, 'in-court' paperless system.

With one centralized location, judges and court staff can easily gain access, view, and track court schedules, documents, and images using a user-friendly interface.

Additionally, eDocket enables court staff to create case-specific notes, search for party's in additional cases, add cases to a 'favorites' list for easy access, and mark calendared cases as 'complete'.

### With eDocket, judges and court staff can:

- ⊙ View and manage their daily calendar, grouped by event or date
- ⊙ Examine specific cases including docket entries and images
- ⊙ View and add or edit specific case, event, and docket notes
- ⊙ View case specific party and financial information
- ⊙ View supplementary documents
- ⊙ Search and retrieve by party name or case number on both current and historical cases
- ⊙ Save cases as 'favorites' for easy and quick access

### Quick Benefits Snapshot

**Manageability** of judicial calendars and case lookup that can be stored, grouped, and organized

**Administration** of judicial calendars by marking calendars complete/incomplete, adding case, docket, and event notes, and adding cases as 'favorites' for easy access

**Accessibility** to in-depth case information including party's, finances, dockets, images, and more in one easy to use interface

**Search and Retrieve** current and historical cases by party name or case number, even perform additional searches on party participants

## eDocket Benefits

### Benefits for Judges

- ✓ Provide 'in-court' access to CourtView data and netDMS images documents with single application
- ✓ User friendly one-screen view of court schedule, documents, and CourtView interaction
- ✓ Unlimited accessibility with snapshot view for alternate off-site access to court records
- ✓ Judge's notes and 'My Favorites' for saving certain cases

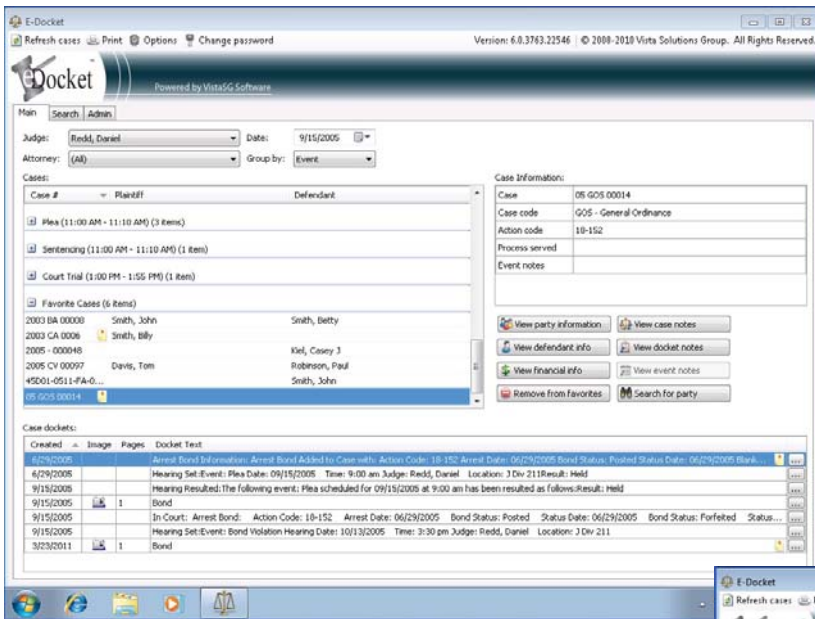

### Benefits for Court Staff

- ✓ Eliminate delivery of court files to the court for judges
- ✓ Multi-accessibility to case files and documents
- ✓ Integrated CourtView information such as docket, parties, charges, event notes, bond amounts, and more
- ✓ CourtView interaction provided in real-time

### What some of Clients have said about eDocket

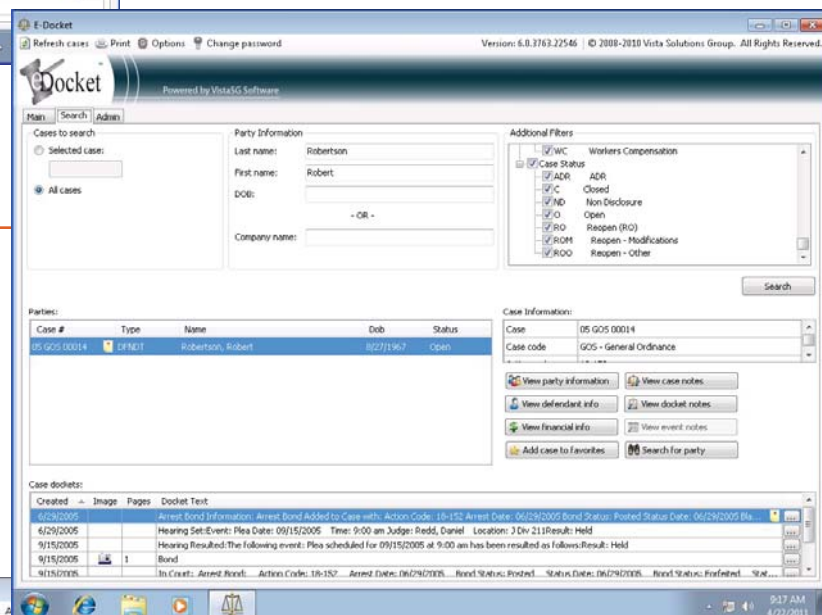

"An important element in the judicial system is the personal experience a Judge provides to the parties that come before them at the bench," said Martin. "If a Judge is tied up looking at a computer screen or having to make multiple keystrokes, then they are pulled away from performing that service."

-- Nolan Martin, IT Manager, Travis County Courts, Travis County, Texas

- ✓ Ability to view daily calendar and see upcoming court schedule
